

1 OVERVIEW

- 1. LED/Power Button
Hold to turn on/Press to cycle modes
- 2. Out Air-vent
Clean air exits here
- 3. Battery Cover
Rechargeable battery
- 4. Pairing Link
Communication connectors
- 5. In Air-vent
Contaminated air enters here
- 6. Charging Port
Micro-USB socket

2 KEY FEATURES

- ACTIVE SANITIZATION**
Plasclide's Micro-lightning
Anti-germ & VOCs technology
- FILTER-LESS PROCESS**
No germ-filled filters
No replacement cost
- RAPID EFFECTIVENESS**
Sanitize within seconds
- CORDLESS PROTECTION**
Hours of battery operation
Wherever you go

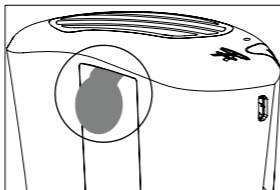

3 PACKAGE CONTENT

- 1. Air Halo Sanitizer
- 2. Li-ion battery (Installed)
- 3. Manual
- 4. Warranty Card

4 QUICK START GUIDE

Preparation before use:

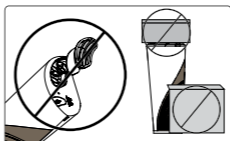

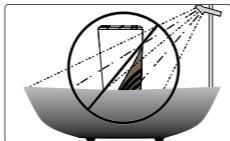

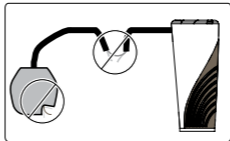

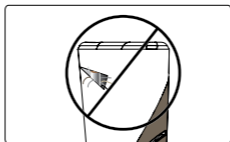

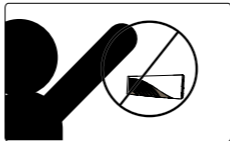

- 1. Remove any protective film(s)
- 2. Remove battery protector's pull-out tab
- 3. Charge the Air Halo until battery is full
Please see:

6.4 Charging

5 SAFETY PRECAUTIONS

- 1. Handle with care. Air Halo can be damaged if dropped, burned, punctured or crushed.
- 2. Do not operate if damaged and/or when the case is broken to avoid potential injury.
- 3. Charge with a USB cable and a compatible USB power adapter at 2A or higher.
- 4. Do not charge or operate with damaged USB cables or USB power adapters.
- 5. Keep dry during operation and storage. Do not operate if wet and/or immersed in any liquid to avoid potential injury and/damages to properties.
- 6. Do not allow infant or young children to operate unsupervised.
- 7. Do not insert any objects into the vents.
- 8. Do not operate without the Out air-vent cover.
- 9. Do not block the In or Out air-vents during operation.
- 10. Do not incinerate the Li-ion battery. Recycle or dispose separately from household waste.

6 OPERATION GUIDE

6.1 Control Button

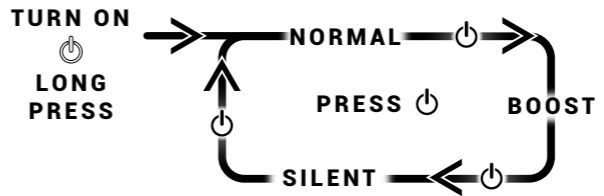

- 1. Press and hold to turn on or off
- 2. Press once to cycle the different modes, LED will flash when cycled

6.2 Operational Modes

MODE	TYPICAL USAGE
NORMAL	EVERYDAY OPTIMIZED POWER
BOOST	MAX COVERAGE FOR DEMANDING SITUATION
SILENT	LOWER POWER FOR QUIET ENVIRONMENT

6.3 Mode Selection

Immediately after turning on, the default power level is set to **Normal**.

6.4 Charging

- 1. Charge with a Micro-USB compatible cable
- 2. Connect the Micro-USB plug to the Air Halo
- 3. Connect the USB plug to a power adapter

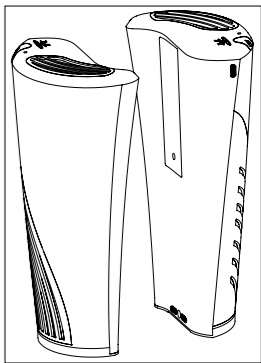

CONDITION	LED
BATTERY LOW	LONG FLASHES
CHARGING	SHORT FLASHES
BATTERY FULL	ON

7 AIR HALOS IN A PAIR

Pairing allows two Air Halos to function as one when placed together or occupy the same cupholder. Control both units from one button and charge from one USB cable.

7.1 Air Halo Pairing

- 1. Place the rear flat face of the Air Halos together
- 2. Align the connectors at the bottom
- 3. Both units will snap together magnetically
- 4. Air Halos will begin pairing automatically within seconds
- 5. Synchronised paired control will now be enabled

7.2 Cancel Pairing

To cancel pairing of the Air Halos, simply separate again.

7.3 Mode Selection when Paired

Press on any unit will control both. For more details see: **6.1 Control Button**

7.4 Charge When Paired

Only one USB cable connected is required to charge both units when using a generic power adapter at 4A or higher. For more details see: **6.4 Charging**

8 MAINTENANCE

8.1 Cleaning recommendation

Before cleaning please **Turn Off**.

1. Surfaces: Slightly damp cloth
2. In-vent: Cotton bud & vacuum
3. Out-vent: Wash dust filter & vacuum

8.2 Surfaces

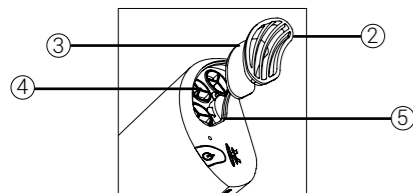

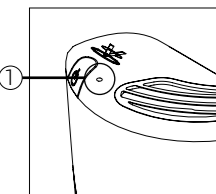

Use a slightly damp cloth to wipe clean any blemish or dirt on the surface.

8.3 In-vent

Vacuum the in-vent carefully, use a cotton bud to remove dirt and dust from between the vents.

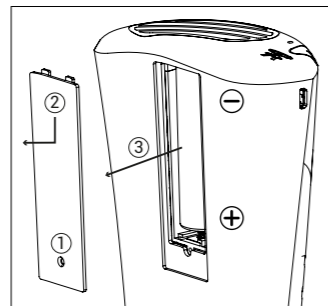

8.4 Out-vent

1. Insert a small and thin tool into the pinhole
2. Push firmly until it clicks and/or the vent cover pops out
3. Remove the dust filter, wash clean and dry
4. Vacuum clean any dust or obstruction within
5. Return the dry dust filter and align vent cover
6. Push vent cover down until it locks securely

8.5 Battery Replacement

CAUTION: Replacing the Li-ion battery incorrectly will severely damage your Air Halo. To replace the rechargeable Li-ion battery:

1. Unscrew the fastener
2. Remove the battery cover
3. Replace battery with Positive (+) end facing downwards
4. Re-fasten the battery cover

8.6 Battery Disposal

Damaged Li-ion battery should be recycled or disposed separately from household waste.

8.7 Repair

Maintenance repair by user is not advised. For more details please see: **11.1 Warranty**

9 SPECIFICATIONS

- Model: AH01
- Power Mode: Silent / Normal / Boost
- Weight: 325g
- Air Sanitizer Technology: Plascide reactors
- Recommend Usage: Personal space
- Input: 5V ---- 2.1A
- Li-ion Battery: 18650 (cylinder-type)x1
- Dimension: 183mm (H), 63mm–83mm (W), 34mm–63mm (D)

SUBJECT TO CHANGE WITHOUT PRIOR NOTICE

10 TROUBLESHOOTING

10.1 Diagnostic

SYMPTOM	DIAGNOSIS	ACTION
LONG LED FLASHES	BATTERY LOW	PLUG POWERED USB CABLE
SUDDENLY TURN OFF	BATTERY EMPTY	PLUG POWERED USB CABLE
SHORT LED FLASHES	CHARGING	-
STEADY ON	BATTERY FULL	UNPLUG POWERED USB CABLE
NO RESPONSE	BATTERY EMPTY	PLUG POWERED USB CABLE
VERY SHORT OPERATION TIME EVEN AFTER FULL CHARGE	BATTERY DAMAGED	PLEASE SEE: 8.5 Battery Replacement
FAN SLOW DOWN WHEN POWERED USB CABLE PLUGGED	USB POWER ADAPTER INADEQUATE	REQUIRE USB POWER ADAPTER WITH 2A OR HIGHER
FAN SLOW DOWN WHEN PAIRED & POWERED USB CABLE PLUGGED		
FAN/LED RESPONSE ONLY WITH POWERED USB CABLE PLUGGED	BATTERY DAMAGED	PLEASE SEE: 8.5 Battery Replacement
NO LED/FAN RESPONSE WITH POWERED USB CABLE PLUGGED & NO BATTERY	PRODUCT FAULT	PLEASE SEE: 11.1 Warranty

11 SERVICE & SUPPORT

11.1 Warranty

- Air Halo is covered by a manufacturer guarantee and warranty
- Self-repair and/or signs of tampering will void the warranty
- Repairs should only be carried out by a certified person
